

Craftsmanship. Customization. Support.

It's what makes up the MQ Package – what goes into every Containerized Generator we produce. From the inside out, an attention to every detail results in a customized system that reliably generates the power you need, with the after sales support to generate the peace of mind you deserve.

MQ POWER® Containerized Generators

Model	CG500C2	CG1000C2	CG1500C2
Generator			
Design	Revolving field, Self-Ventilated, Drip-Proof		
Number of Poles	4-pole		
Excitation	Brushless with PMG		
Standby Output (kW)	500	1,000	1,500
Prime Output (kW)	455	900	1,365
Generator RPM	1,800		
Voltage- 3 Phase*	480V		
Armature Connection	WYE Connection		
Voltage Regulation, no load to full load	0.25%		0.5%
Power Factor	0.8		
Frequency	60 Hz		
Insulation	Class H		
Diesel Engine			
Make / Model	Cummins QSX 15-69	Cummins QST30-G5	Cummins QSK50-G5
Emissions	Tier 2		
Fuel Tank Capacity gal. (double wall)	600	1,000	1,000
Prime Power Fuel Consumption:			
Full load gph (lph)	31.1 (117.8)	63.9 (241.9)	98.0(3710.0)
3/4 load gph (lph)	23.9 (90.5)	47.5 (179.8)	76.7 (290.3)
1/2 load gph (lph)	17.2 (65.3)	32.1 (121.5)	56.0 (212.0)
1/4 load gph (lph)	9.9 (37.4)	17.3 (65.5)	31.6 (119.6)
Coolant capacity gal. (liters)	6.3 (24)	70 (265)	120 (454)
Oil capacity with filters gal. (liters)	24 (91.0)	40.7 (154.1)	62 (235)
Battery (24 VDC series parallel connection)	2 each Group 8D		4 each Group 8Dw
Size			
L x W x H (ft.)	20 x 8 x 8.5	30 x 8 x 9.5	40 x 8 x 9.5
Approx. Net Weight w/o Fuel (lbs)*	22,440	53,420	68,060
Chassis Weight (lbs)	6,480	6,000	6,600
Amps			
Three phase 480V	752	1,504	2,255

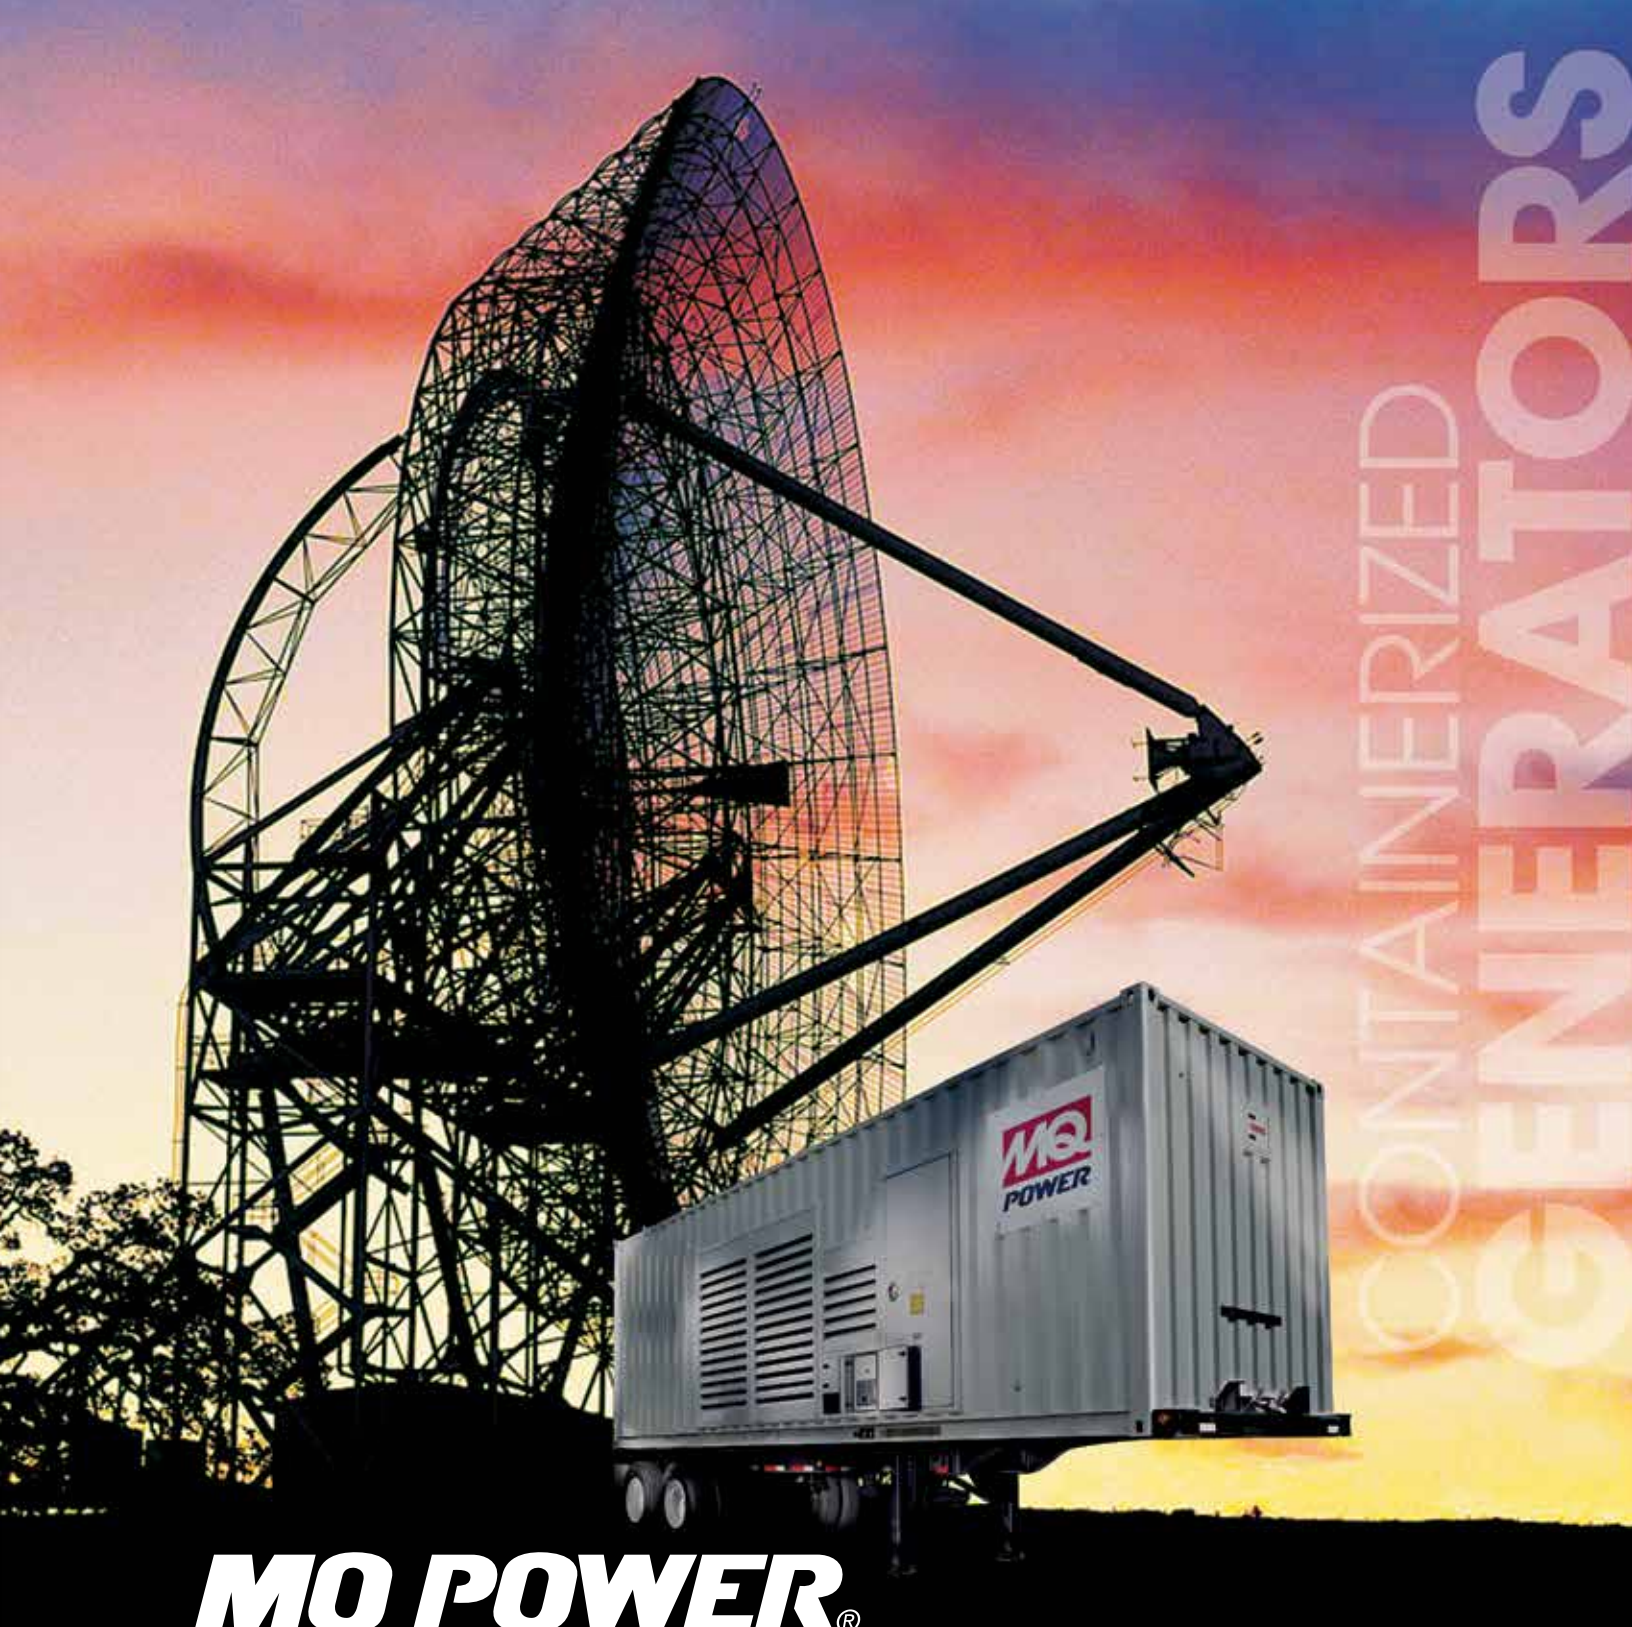

* Special voltage outputs are available (Special order)

CONTAINERIZED
GENERATORS

MQ POWER[®]

The power to generate peace of mind.

MQ POWER®

...the preferred package for containerized generators.

At Multiquip, we generate more than kilowatts. We generate confidence.

Long known as the industry standard for superior craftsmanship and proven performance, your MQ Power Containerized Generator will deliver peace of mind in a turnkey package built to your specifications. Whether powering a utility substation, a refinery, a remote job site or even a large entertainment or sporting event, MQ Power Containerized Generators can tackle the biggest jobs, delivering the power whenever and wherever you need it.

MQ Power Containerized Generators

Available in 500 – 1,500 kW

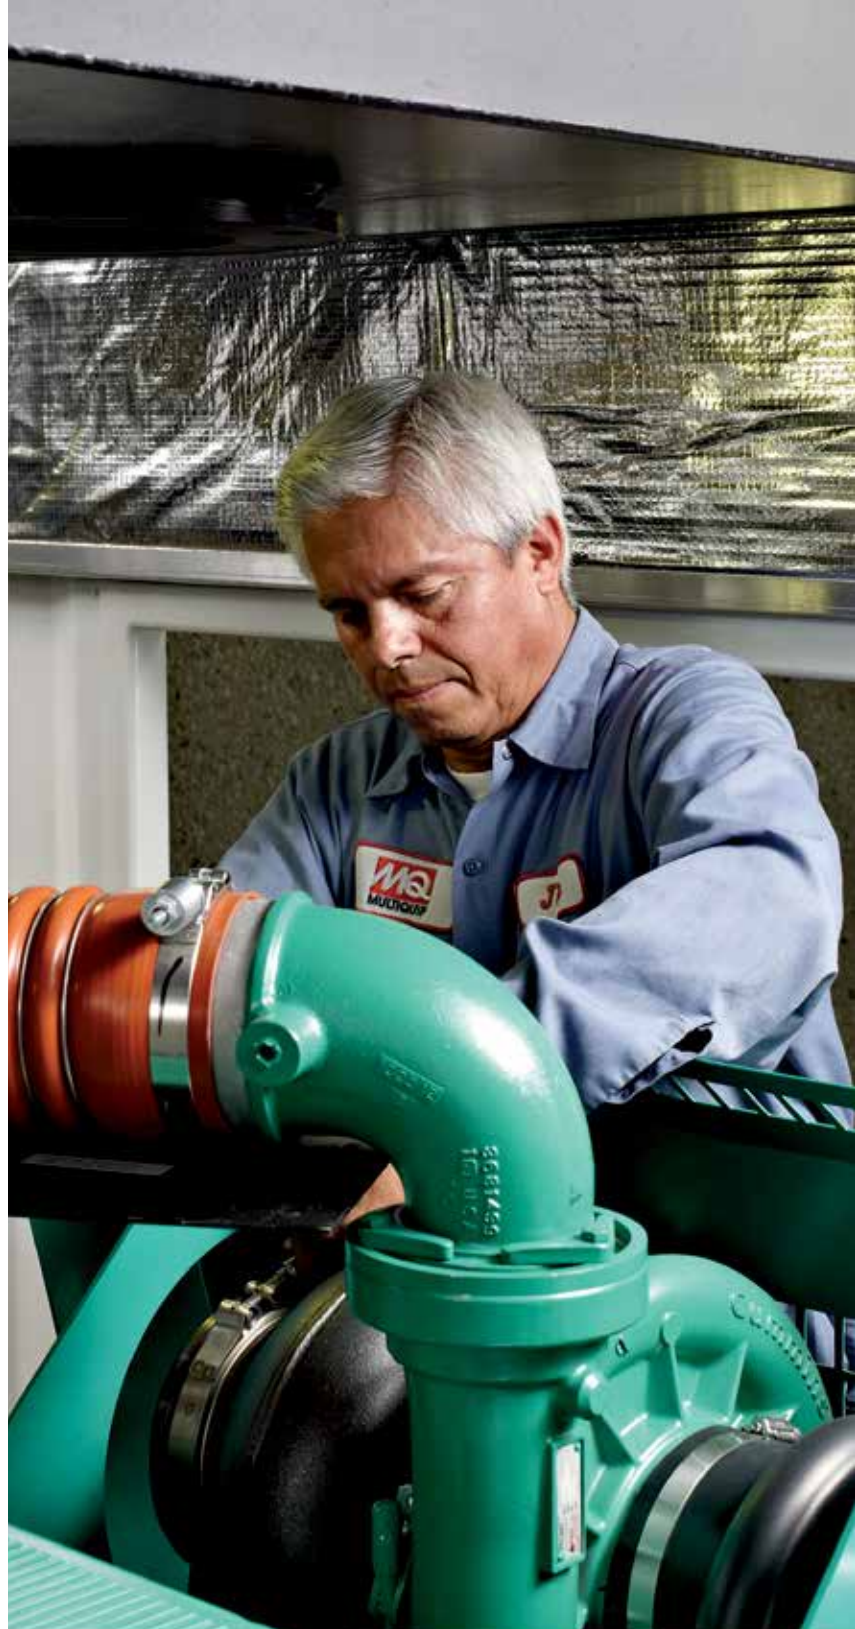

With great power, comes great responsibility.

We take our commitment to superior quality and performance very seriously. Our Containerized Generators are engineered and built with an attention to every detail. They're designed to deliver reliable power under the most demanding conditions.

- MQ Gensets feature clean, precise wiring layouts, labeled and neatly configured in a NEMA rated wireway.
- Advanced digital control panel simplifies operation and system monitoring, with clear, concise displays and touchkey programming.
- Manual and remote starting capabilities.
- Electronically operated, UL listed mainline circuit breaker.
- Sound-attenuated, acoustical fiberglass and integral vibration isolators minimize noise and reduce vibration.
- Tightly fitted container seams and precision welds ensure a weather resistant interior environment.
- A Rhino Linings® vinyl-coated skid resistant floor safety system provides full containment, preventing any leakage of fluids.
- Optional trailer package available with all models.

Digital control panel accessible from outside the container, monitors the container's performance and displays precise operating conditions.

Simplified maintenance reduces downtime.

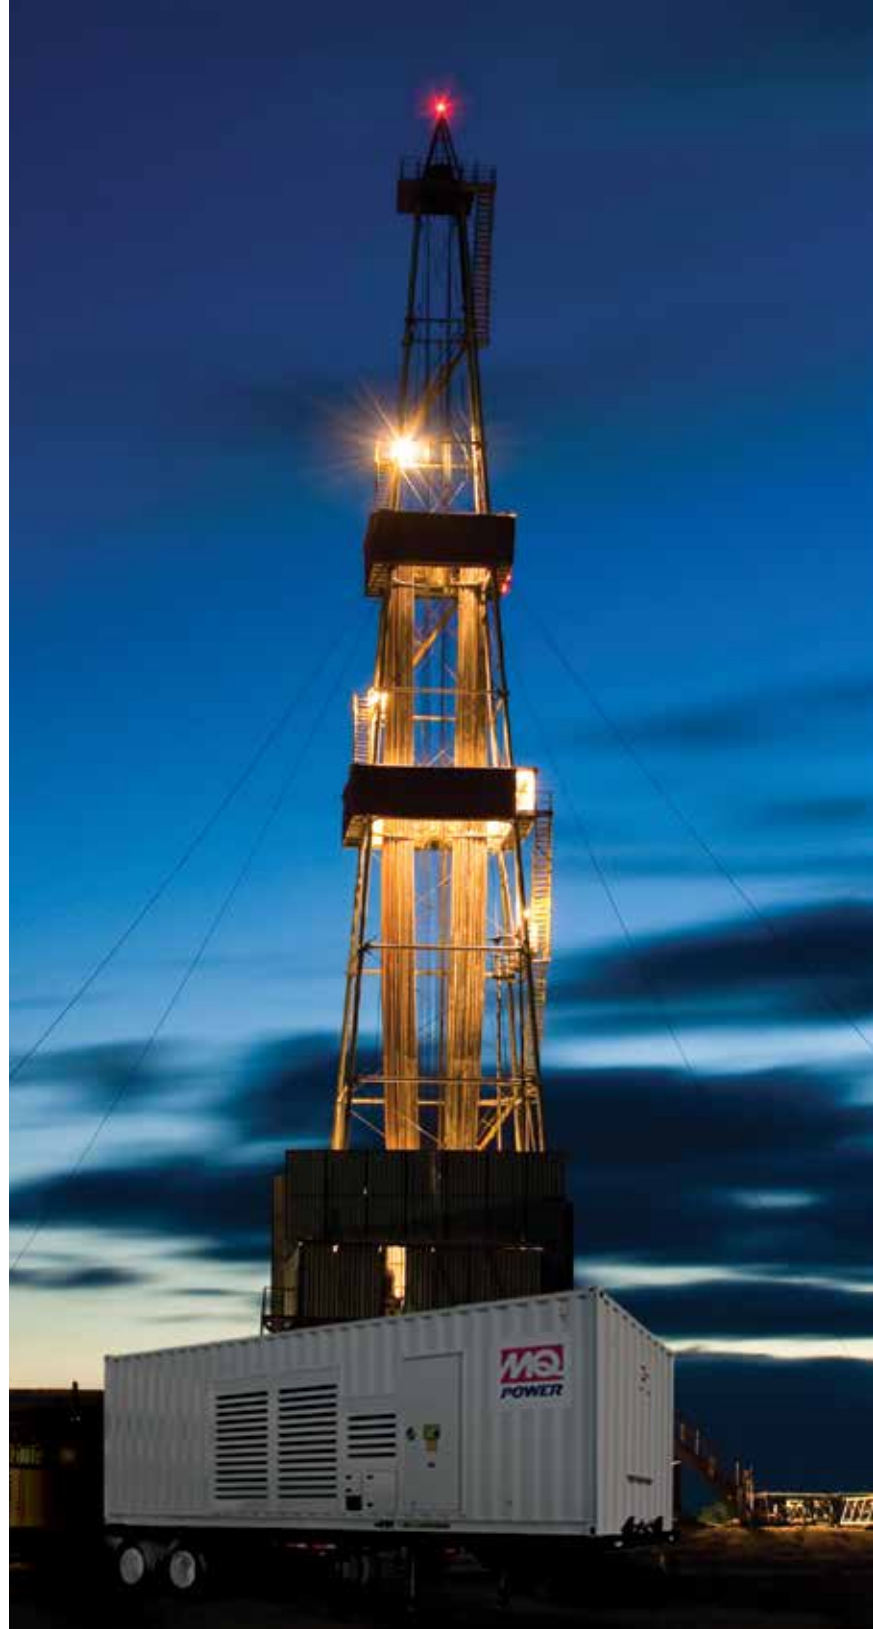

- Streamlined wiring configurations make troubleshooting and maintenance functions fast and easy.
- Timer-controlled lighting fully illuminates all work areas.
- Doorway and interior walkways provide easy access for maintenance.
- Exterior heavy-duty foam undercoating holds up even in the most extreme conditions.

We never compromise on safety.

- Integrated double wall fuel tanks are equipped with an external fuel fill to ensure safe and easy refueling.
- All personnel entry doors are equipped with emergency interior release handles.
- Control panel features include safety shutdowns and an externally mounted emergency stop switch.

Customer support that's second to none.

Every MQ Power Containerized Generator is backed by our renowned customer support program. A highly skilled, on-line technical support team is available to help resolve any issues in the field every working day. In addition, our network of field service managers are on call to provide job site support should you ever need it.
