

GB3LEDB

300W LED Lamp, Balloon only

Multiquip introduces LED technology to our line of GloBugs. LED bulbs are safer, producing significantly less heat than Metal Halide bulbs while offering better color consistency and a long operating life.

This model is the "balloon light only" and does not include a stand.

- Superior Lighting Properties - Color consistency is near perfect, with better color rendering and overall quality
- Shock resistant LED assembly - Protects the lamps and water resistant
- Long life hours, low maintenance - Up to 40,000 hours of operating life per bulb
- Safer; LED holds less heat - LED Lamps (158°) vs. Metal Halide (422°)
- Optional illuminance settings - 3-stage dimming controls (100W, 200W, 300W)
- Safe, convenient operating process - Instant start and restarting
- Environmentally, economically smart - LED reduces operating costs and CO2 emissions up to 85%

Unit Specifications

Deployment Style	Kit
Voltage	115 AC V
Hertz	50/60 Hz
Amperage	3.3A @ 300W A
Dimming Control	300W / 200W / 100W
Total Lux	38,000 (300W) / 28,000 (200W) 16,000 (100W)
Operating Temps	-23° ~ 104°F
Mast Design	Manual w/ 2 stages (gas assist)
Max Height	12.5' ft.
Weight	27lb.
Appropriate Generator	350W and above
Max Wind Loading	25 - 30 MPH
