

GB43SC

GloBug cart ,4x400W Lights, 3-stage mast

The new GloBug 4-Spot Light Tower is the ideal portable lighting source when compact lights are required. The small footprint allows transportation of several units in small delivery vehicles. No tools are required to adjust the lamps for quick deployment. Consider the GloBug 4-Spot as an alternative solution to the traditional tow-behind light tower.

- Three-stage mast extends up to 13.8 feet
- Lifting bale for safe tower handling
- Safety winch prevents mast from collapsing
- Each 400W lamp housing can be individually set to any direction
- Operates on hard electrical connections as well as most portable generators
- Cart handle bar for easy steering & transport
- Folds to tight 3.5' x 3' x 5.6 ' package

Unit Specifications

Required Generator Sizing	2500 W
Voltage	115 V
Amps	18.6 A
Frequency	60 Hz
Lamp Type	400 watt Metal Halide (x4)
Total Luminous Flux	142,000 lm
Outriggers	yes
