

GBP

Reflector Top, 1000W Metal Halide Lamp

Equipped with a lightweight, internal electronic ballast the GBP allows the user to develop their own mounting system or use as a replacement balloon for the GBC, GBS or GBW models. Its 1,000 watt output effectively lights up any area.

- Reflector Top
- Reduced component weight
- Low starting current requirement
- Customize with 12 x 43 in optional message strips!
