GloBug System w/Heavy Duty Cart

The ideal combination of the innovative GloBug with a heavy duty cart for easy transportation! The Steerable cart sets up without tools and provides the perfect place to connect to an optional Portable Generator.

- Steerable cart design for easy transportation - sets up without tools; easy to maneuver.
- Quick restrike time - 3 to 5 minutes.
- Universally adaptable to all AC power supplies - accepts 50/60Hz, 100-240V.
- Three-stage mast - extends up to 12' 1".
- Three outriggers for great stabilization.
- System can be broken down and placed in the trunk of a car.
- Light coverage up to 150 feet.
